

# Pathways to Food: Training Directory

This directory brings together a range of training opportunities in food, catering and hospitality in East London. It includes offers for school leavers looking for their first step into the industry, to adults re-skilling; and from community groups delivering local food projects, to businesses wanting to improve their offer.

It's part of a wider Good Food Plan and Partnership, including Barking and Dagenham Council, Barking and Dagenham College and a network of local schools, organisations and individuals who are passionate about supporting a more sustainable, vibrant and inclusive food system.

Find out more about the [Barking & Dagenham Good Food Partnership](#) [here](#).
